BACON JERKY, A NEW KIND OF BACONY GOODNESS SNACK FOR BACON LOVERS.

Los Angeles, CA (May 29, 2009)

It was only a few months ago that the guys at www.baconfreak.com created bacon jerky, You heard me right, I didn't say beef jerky, I said Bacon Jerky! I am sure that all you true bacon aficionados are already drooling uncontrollably as your internal tasting mechanisms know that bacon jerky will be able to satisfy your daily bacon urges on go. No longer are you limited to eating bacon at home, you can now take our pouches with you and eat bacon at work, school or simply as a great snack no matter where you are at anytime throughout your day.

The best part about Bacon Jerky in comparison to regular bacon is that when you cook bacon, the aroma floats through the air calling out to those around you to come and get it which means that you have to share. With Bacon Jerky it's ready to eat the second you want it! You can simply enjoy a few pieces and those around you want know that you're snacking on the most delectably delicious bacon ever. How great is that?

You are probably asking what is Bacon Jerky? Well it's similar to beef jerky, but we start with the highest quality dry cured gourmet country bacon like the kind that you have come to love with the Bacon Freak Bacon is Meat Candy Bacon Club. In fact we use several of the same flavors such as our Bourbon Street Cajun Bacon, Coastal Caliente Jalapeno Bacon, Rocco's Private Reserve Pepper Bacon, Boss Hog Hickory Bacon, Honey BBQ Bacon and now our Boss Hog's Maple Bacon. Each strip of bacon is hand rubbed with our various spices and prepared to perfection. Bacon Freak promises you that this is snack that you won't soon forget.

This is definitely a delectably delicious snack. For more information, please to go to www.baconjerky.com or www.baconfreak.com
